

Enterprise Zones Have Impact.

In 2019, OEDA and our Members lobbied successfully to preserve Oregon's Enterprise Zones. This fight will continue in 2020.

Join OEDA to stand up for this essential program.

OEDA is Oregon's voice for economic development priorities, programs and resources. While challenges to enterprise zones arise each year, this year the challenge took on great momentum. House Bill 2408 proposed that certain projects in Enterprise Zones comply with reporting standards for prevailing wage—a requirement that would largely offset the benefits that enterprise zones offer.

We are reaching out to communities with enterprise zones that are not currently members of OEDA to invite you to join our statewide economic development association. In addition to peer networking, resources, trainings and events, we hope to include your voice in our continued advocacy for enterprise zones.

Enclosed is information about membership and an application form. Additional information about OEDA is available at www.oeda.biz or by inquiry to info@oeda.biz or (541) 623-0064.
