SUBJECT: 2023 Summary of New Laws

Purpose

This 2023 Summary of New Laws is designed to serve as a notice of the 82nd Legislative Assembly's 2023 Regular Session enactments which affect agency responsibilities. Employees are directed to consult with their managers regarding interpretation and compliance with new laws, in some cases it may be necessary to consult the Department of Justice on the meaning of specific language. Managers are already working to pull together necessary parties and resources for implementation.

Questions should be directed to Mark Gharst, Business Oregon's Government Affairs Manager (503-991-2192 or mark.gharst@biz.oregon.gov).

The State Legislature convened from January 17, 2023, to June 25, 2023. Almost 3,000 bills were introduced; over 650 passed both chambers, were signed into law by the Governor, and will become effective over the next several months. The 2023-25 Legislatively Adopted Budget for Business Oregon is nearly **\$2 billion total funds**. The 22% decrease from the 2021-23 Legislatively Approved Budget is primarily due to the spend down on previously approved infrastructure projects and phase-out of one-time funding. The Legislatively Adopted Budget includes new program investments and additional funding for existing programs. The budget includes issuance of General Obligation and Lottery Bonds to make business and infrastructure investments to expand childcare infrastructure options and recapitalize infrastructure programs, such as the Special Public Works Fund (\$30M), Levee Grant Program (\$10M), and Seismic Rehabilitation (\$150M).

The 82nd Legislative Assembly also approved \$190M for advanced manufacturing business expansion and recruitment, including semiconductor firms taking advantage of the federal CHIPS Act. These funds were approved as part of the 2012-23 budget, but most of the resource will carry into the new biennium. In addition, the Emergency Board holds a Special Purpose Appropriation of \$50M for the Oregon CHIPS Fund.

The budget includes the following adjustments to the Current Service Level:
